Re: Safety-Kleen Systems, Inc.
Pekin, Illinois Service Center
14249 VFW Road
Pekin, Illinois 61554
EPA I.D. ILD093862811

To Whom it May Concern:

Under 35 Ill. Adm. Code 703.281a)2), owners and operators of hazardous waste Treatment, Storage, and Disposal (TSD) facilities must notify all persons on the facility's mailing list of modifications to the facility's Part B Permit within 90 days of the modification. Class 1 modifications are those types of modifications which affect the operation of the facility the least. (i.e. administrative changes, corrections of typographical errors, changes in personnel, etc...) This letter serves as notice that Safety-Kleen Systems, Inc. has made the following Class 1 modifications to the subject facility's Part B Permit Application. The modifications are as follows;

August 10, 1998

The facility alternate emergency coordinator information was updated for the Emergency Information Sheet, Exhibit G-1 of the facility's Part B Permit Application. The effective date of the change was August 10, 1998.

September 28, 1998

The facility alternate emergency coordinator information was updated for the Emergency Information Sheet, Exhibit G-1 of the facility's Part B Permit Application. The effective date of the change was September 28, 1998.

If you have any questions, please contact me at 573/335-3461.

Sincerely,

Kevin Farmer

EPA I.D. ILD093862811

To Whom it May Concern:

This submittal constitutes notice of a Class 1 permit modifications under 35 Ill. Adm. Code 703. The following revisions were included in a permit modification submitted to IEPA. The emergency contact list has been modified to update the primary emergency coordinators pager number and the emergency remedial contractor has been changed from Smith Environmental to CURA. Safety-Kleen has determined these to be a Class 1 permit modifications according to 35 Ill. Adm. Code 703, Appendix A, B.6.d. In accordance with class 1 permit modification procedures, Safety-Kleen is providing this notice to the Illinois Environmental Protection Agency, local authorities, and all interested parties on the mailing list for this facility.

If you have any questions, please contact me at 515/266-0319.

Sincerely,

Mori Sorenson

Subject: Class 1¹ Modification to Part B Permit
Safety-Kleen Corp.
13579 VFW Road
Pekin, IL 61554

Dear Sir or Madam:

As required under 35 Ill. Adm. Code 703.281(a)(2), owners and operators of hazardous waste Treatment, Storage, Disposal (TSD) facilities must notify all persons on the facility's mailing list of modifications to the facility's Part B permit.

This letter is to notify you that a Class 1¹ modification has been made to the subject facility's permit. Class 1¹ modifications are minor modifications such as administrative or typographical changes that require approval from the Illinois Environmental Protection Agency (IEPA) prior to implementation of the modification.

The facility's permit has been modified to incorporate analytical requirements for the acceptance of several non-hazardous waste streams and to ensure the facility's permit is consistent with current operations. The IEPA approved the class 1¹ modification on February 21, 1997.

If you have any questions or require additional information, please contact me at (515) 266-0319.

Sincerely,

for Mori Sorenson

RE: Safety-Kleen Corp.
R.R. #3
Pekin, IL 61554

Dear Sir or Madam,

This submittal constitutes notice of a Class I permit modification under 40 CFR 270.42(a). The Part B permit for the subject facility has been modified. Safety-Kleen has determined that the changes listed below are Class I permit modifications according to 40 CFR 270.42 (d)(2)(i) which states that modifications that do not substantially alter the permit conditions or reduce capacity of the facility to protect human health and the environment are Class I permit modifications.

The Illinois Environmental Protection Agency is required, under law, to keep an up to date listing of interested parties that wish to be notified of facility permit changes and your organization has been identified on this list. In accordance with Class I permit modification procedures, Safety-Kleen is providing notice to the Illinois Environmental Protection Agency, U.S. EPA Region V, and all interested parties on the mailing list for the subject facility. The following modifications are being implemented immediately:

1. In accordance with Class I modification 40 CFR 270.42, Appendix I, A.1. the following modifications are informational changes. Various drawings and sections of the permit text have been changed to include the location of the new facility office. The old office is being used for warehouse storage. All local agencies which may respond to this facility in the event of an emergency have been alerted to this change.

Under the same regulation, the mailing address of the facility contact regarding waste activities has changed. Also, the trade name of the 105 parts washer solvent has been renamed parts washer solvent. An MSDS was forwarded to IEPA to demonstrate the make-up of the parts washer solvent.

1/18/94
page 2

Under the same regulation, transfer wastes may also be managed through the permitted storage units. Also a Safety-Kleen employee or a tanker truck driver will be present at all times when material is being transferred from a truck to a tank or vice-versa.

Under the same regulation, the daily inspection log will be maintained as part of the facility operating record. Also, the financial assurance mechanism of the facility has been updated to the most recent copy available.

2. In accordance with Class I modification 40 CFR 270.42, Appendix I, A.2, a typographical error was made listing the dry cleaning drum as a 20 gallon container when the drum size is in fact a 15 gallon container.

Under the same regulation, a typographical error was made in regards to the aisle space requirement between individual pallets. The spacing requirements is for aisle space distance between rows of pallets which will be maintained at 2 feet. Under the same regulation as item 1., pallets for stacking need only be used when storing larger containers on top of smaller containers.

3. In accordance with Class I modification 40 CFR 270.42, Appendix I, A.6.d, the second alternate emergency coordinator for the facility is no longer employed by Safety-Kleen and has been replaced.

If you have any questions on the above modifications, or require additional information, please feel free to contact me at 708/468-6580. The Illinois Environmental Protection Agency permit writer for the subject facility is Mr. Ron Harmon who can be reached at 217/524-3268.

Sincerely,

Jennifer M. Jendras

ILD NO.: ILD093862811
NOTICE NO.: PB13-90

DATE: October 19, 1990

PUBLIC NOTICE

The Illinois Environmental Protection Agency (IEPA) and the United States Environmental Protection Agency (U.S.EPA) hereby give notice of intent to deny a joint Resource Conservation and Recovery Act (RCRA) permit and a Hazardous and Solid Waste Amendments (HSWA) permit to Safety-Kleen Corporation on V.F.W. Road between Highway 29 and 5th Street, south of Pekin, Illinois. The facility's mailing address is R.R.#3 Pekin, Illinois 61554. Safety-Kleen is currently storing hazardous wastes under interim status as provided for in Section 3005 of RCRA.

Interested citizens are invited to review copies of the permit application, draft denial and related fact sheets at the following location:

Pekin Public Library
301 South 4th St.
Pekin, Illinois 61554

Interested citizens may submit written comments on the permit decision documents to the Public Involvement Coordinator at IEPA (listed at the end of this Notice) by December 3, 1990. In response to public requests or at the discretion of IEPA or U.S. EPA, a public hearing can be held to clarify one or more issues concerning the draft permit decision. A request for a public hearing must be made in writing and must state the nature of the issue to be raised at the hearing. Written requests should be sent to the Public Involvement Coordinator listed below. Public notice will be issued 45 days before any hearing.

All comments submitted will become part of the Administrative Record and will be evaluated by IEPA and U.S. EPA in making the final permit decisions. The two agencies will respond to comments on the draft permit decision, and indicate whether additional documents have been included in the Administrative Record. Anyone who submits written comments will be notified of the final permit decision and the permit decision appeal process.

The IEPA Division of Land Pollution Control has the authorization to administer the RCRA program and, as of April 30, 1990, specific 1984 HSWA provisions (amending RCRA) that address corrective actions, waste minimization, mixed wastes and other regulatory functions. For further clarification of program authority, refer to the March 1, 1990 Federal Register, Vol. 55, No. 41, pg 7320.

The permit application, draft denial, related information and all data submitted by the applicant, as part of the Administrative Record, are now available for public inspection Monday through Friday between 9:00 a.m. and 5:00 p.m. at the following location:

Illinois EPA
Government & Community Affairs
Attn: Keri Luly, Public Involvement Coordinator
2200 Churchill Road
P.O.Box 19276
Springfield, Illinois 62794-9276
217-782-5562

Please telephone ahead for an appointment to view the documents.

PUBLIC NOTICE

The Illinois Environmental Protection Agency (IEPA) and United States Environmental Protection Agency (U.S.EPA) hereby give notice of intent to deny a joint resource Conservation and Recovery Act (RCRA) permit and a Hazardous and Solid Waste Amendments (HSWA) permit to Saftey-Kleen Corporation on V.F.W. Road between Highway 29 and 5th street, south of Pekin, Illinois. The facility's mailing address is R.R.#3 Pekin, Illinois, 61554. Saftey-Kleen is currently storing hazardous wastes under interim status as provided for Section 3005 of RCRA.

Interested citizens are invited to review copies of the permit application, draft denial and related fact sheets at the following location.

Pekin Public Library
 301 South 4th St.
 Pekin, Illinois, 61554

Interested citizens may submit written comments on the permit decision documents to the Public Involvement Coordinator at IEPA (listed at the end of this notice) by December 3, 1990. In response to public requests or at the discretion of IEPA or U.S.EPA, a public hearing can be held to clarify one or more issues concerning the draft permit decision. A request for public hearing must be made in writing and must state the nature of the issue to be raised at the hearing. Written requests should be sent to the Public Involvement Coordinator listed below. Public notice will be issued 45 days before any hearing.

All comments submitted will become part of the Administrative Record and will be evaluated by IEPA and U.S.EPA in making the final permit decisions. The two agencies will respond to comments on the draft permit decision, and indicate whether additional documents have been included in the Administrative Record. Anyone who submits written comments will be notified of the final permit decision and the permit decision appeal process.

The IEPA Division of Land Pollution Control has the authorization to administer the RCRA program and, as of April 30, 1990, specific 1984 HSWA provisions (amending RCRA) that address corrective actions, waste minimization, mixed wastes and other regulatory functions. For further clarification of program authority, refer to the March 1, 1990 Federal Register, Vol. 55, No. 41, pg. 7320.

The permit application, draft denial, related information and all data submitted by the applicant, as part of the Administrative Record, are now available for public inspection Monday through Friday between 9:00 A.M. and 5:00 p.m. at the following location:

Illinois EPA
 Government & Community Affairs
Attn: Keri Luly, Public Involvement Coordinator

RADIO PUBLIC SERVICE ANNOUNCEMENT

THE ILLINOIS ENVIRONMENTAL PROTECTION AGENCY IS CONSIDERING DENYING A PERMIT TO STORE HAZARDOUS WASTE TO THE SAFETY-KLEEN CORPORATION'S SERVICE CENTER SOUTH OF PEKIN. THE SERVICE CENTER IS CURRENTLY OPERATING LEGALLY UNDER INTERIM STATUS.

THE FACILITY'S PERMIT APPLICATION AND DRAFT DENIAL ARE NOW AVAILABLE FOR PUBLIC REVIEW. THE COMPANY HAS THE RIGHT TO AMEND DEFICIENCIES IN ITS PERMIT APPLICATION, AFTER WHICH THE AGENCY MAY ISSUE ALL OR PART OF THE PERMIT. THE AGENCY IS SEEKING WRITTEN PUBLIC COMMENTS FROM INTERESTED CITIZENS BEFORE REACHING FINAL DECISIONS ON THE PERMIT. THE DEADLINE TO SUBMIT WRITTEN COMMENTS IS DECEMBER 3, 1990. FOR FURTHER INFORMATION ABOUT REVIEWING DOCUMENTS AND SUBMITTING COMMENTS PLEASE CALL KERI LULY AT 217/782-5562.

The Honorable Jay Ackerman
Illinois State Representative
205 West Jefferson
Morton, Illinois 61550

Dear Representative Ackerman:

The enclosed material refers to the Resource Conservation and Recovery Act (RCRA) and Hazardous and Solid Waste Amendments (HSWA) permit applied for by the Safety-Kleen Corporation service center south of Pekin, Illinois. A public information repository has been established at the Pekin Public Library on South 4th Street, so that interested citizens can review the facility's permit application and the Illinois Environmental Protection Agency's (IEPA) draft decision to deny the permit. The IEPA is accepting public comments on the draft permit denial until December 3, 1990 for consideration prior to the final RCRA/HSWA decision.

If you have any questions, please call me at 217-782-3397.

Sincerely,

A handwritten signature in black ink that reads "Bruce Rodman". The signature is fluid and cursive, with a long horizontal stroke extending from the end of the name.

Paula Weiss, Director
Pekin Public Library
301 South 4th Street
Pekin, Illinois 61554

Dear Ms. Weiss:

Enclosed please find the binders of information that we discussed by phone on October 10th. The information is relevant to the Resource Conservation and Recovery Act (RCRA) permit that the Safety-Kleen Corporation is required to obtain in order to continue storing hazardous waste. It is very important that citizens in the area of Safety-Kleen have the opportunity to review the application materials submitted by the company and the permit denial currently intended by the state and federal Environmental Protection Agencies.

The best place for citizens to begin review of the permit information is the binder entitled Draft Permit Denial and Related Materials. The other binder contains all the background information referenced in the draft denial. My name and phone number are listed in the Draft Permit Denial and Related Materials binder in case citizens have questions regarding this process. Written comments should also be sent to me by December 3, 1990.

These binders should not be allowed to circulate since interested citizens might then be prevented from reviewing the materials during the 45 day comment period. At the end of the permit process (approximately 6 months) one of our staff members will pick up the informational binders, unless you would like to keep any of them.

I would appreciate it if you would complete the attached verification form and return it to me in the enclosed postage paid envelope. Thanks again for your cooperation in this effort.

Sincerely,

A handwritten signature in cursive script that reads "Keri Luly".

February 25, 1991

Chairman Larry G. Koch
Tazewell County Board
McKenzie Building, 3rd Floor
Pekin, Illinois 61554

Dear Mr. Koch,

Thank you for your letter of February 5, expressing concern regarding the Safety-Kleen Corp.'s Service Center in Pekin and its application to IEPA for a state operating permit. The operating permit establishes site specific operating standards but generally does not address past problems at the facility. In the case of Safety-Kleen, the only areas to be sampled will be those areas for which construction is planned.

However, in addition to action on the state permit, the Agency will act on another Safety-Kleen permit application for which we had issued a draft denial based on a lack of complete information. The draft denial notice dated October 19, 1990, was for a Resource Conservation and Recovery Act and Hazardous and Solid Waste Amendments permit (RCRA/HSWA). These two federal laws govern facilities which treat, store or dispose of hazardous wastes. Your concerns regarding past hazardous waste management practices or potential problems can be best addressed through this RCRA/HSWA permitting process. I am enclosing factsheets regarding this permitting process for your review.

During the comment period for this draft denial the company, Safety-Kleen, submitted materials which made its application complete. Now that the reviewer has a complete application, he will review it for its technical merits. After the Agency has completed its technical reviews, a draft decision will be made whether to issue or deny the permit. An updated copy of the permit application and draft decision document will be placed in the Pekin Public Library. The applicant is also required to send a copy of the complete application to the local government. A 45 day comment period will begin with the publication of the Agency's draft decision in the Pekin Daily Times.

At any time during the comment period a public hearing could be scheduled, however we don't find formal hearings the best way to communicate with the public. Small group meetings to discuss issues and exchange information are a better way to incorporate community concerns into permit actions. I have forwarded your concerns regarding the state permit application to the RCRA/HSWA permit reviewer for consideration during review of the application materials.

After a draft decision is made on the revised application, I suggest you review the repository materials, especially the draft decision document. If there are still areas which you feel have not been adequately addressed, please don't hesitate to call me with your questions and concerns.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mara McGinnis". The signature is fluid and cursive, with the first name "Mara" and last name "McGinnis" clearly distinguishable.

Re: Safety-Kleen Corp. Service Center
5.6 No. 1790600011 - Log #1991-016
Pekin, Illinois *State de-*

Dear Mr. Eastep:

We have reviewed the above application for Safety-Kleen to operate a hazardous waste storage/transfer facility in Tazewell County. We would like to request a public hearing on this permit application because of the following concerns we have after reviewing the I.E.P.A. records on this facility:

- 1) The facility is inspected only once every other year. We are aware of the facility being cited with violations on the last two (2) routine inspections. On the last inspection, July 12, 1989, the facility was cited for nine (9) violations (see attached.)
- 2) The facility has had one (1) oil spill that Safety-Kleen discovered on February 21, 1989. This is the only documented spill that we are aware of (see attached.)
- 3) The facility has been in existence at the Pekin site since 1976. There are five (5) homes that are reported within 1/4 mile of the facility and are on wells, in addition to the facility having its own well.

Have these wells been analyzed for chemicals, such as PCB's, VOC's, heavy metals, etc?

As the facility was not adequately monitored, to our knowledge, from 1976 to the current date, has any contamination to the groundwater occurred over the years?

If these wells have not been analyzed, we request that they be sampled and analyzed for the above-mentioned chemicals.

RECEIVED
FEB 08 1991
IEPA-DLPC

February 5, 1991

Mr. Lawrence Eastep, P.E.

Page Two

February 5, 1991

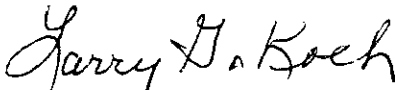

- 4) As the facility managed ninety-three (93) hazardous wastes and seventeen (17) non-hazardous wastes, we are concerned that inspections occurring once every other year are not adequate to ensure the safety of our County residents.

We would like to request that Tazewell County Health Department monitor the facility on a regular basis to help ensure that the facility is operated in a way that will protect our residents.

Again, we feel our concerns need to be addressed before a permit is issued to this facility.

If you have any questions, please feel free to contact me.

Yours very truly,

Larry G. Koch
Chairman of the Board

LGK/1

A search of Safety-Kleen records and Agency files revealed the following apparent violations, which are indicated on the appropriate checklist:

- 703.154(c) - The facility has installed and operated a tank with larger design capacity than the tank indicated on the Part A Application.
- 703.155(b) - Same as above.
- 725.113(a) - The facility has no records on site of chemical analyses of wastes stored.
- 725.154(c) - The contingency plan has not been amended to reflect changes necessitated by larger aboveground tanks: larger volume as a fire hazard; adequacy of verbal cry for evacuation; alternate evacuation routes.
- 725.173(b) - The operating record does not include records and results of waste analyses and trial tests as specified in 725.113.
- 725.174(a) - The waste analyses were not available for inspection at the facility.
- 725.292(a) - No independent, certified written assessment of the aboveground tank system was available. This apparent violation was resolved during the report writing period.
- 725.292(g) - Same as above.
- 807.202(a) - No operating permit has been issued for the waste oil collection and storage operation.

9 A letter in Agency files, dated December 23, 1988, from Paul Jagiello indicates that an agreement exists waiving the necessity for developmental permits from Safety-Kleen; therefore, this apparent violations was not cited.

In a telephone conversation on July 14, 1989, Ted Dragovich of Permits confirmed no application for a permit for the waste oil activities had been received and no viable Part 'B' application for the Pekin facility had been received by that date.

FEB 08 1991

IEPA-DLPC

DATE: February 22, 1989

DLPC Division Files
MS

FROM: Mitch Smith, DLPC/FOS, Peoria Region 3

SUBJECT: #179 060 0011 - Tazewell County
Pekin/Safety-Kleen
FOS

The DLPC received information regarding an oil spill at Safety-Kleen Corp. R.R.#3, Pekin, Illinois (#179 060 0011). On February 22, 1989 at 1:45 p.m., this author and James Jones arrived on site. We proceeded to the northeast corner of the property and took two photographs of the area in question (see site sketch and photographs #1 and #2).

Mike Sanderson, Branch Manager for Safety-Kleen, described the situation to Agency personnel. Because the facility was installing four 20,000 gallon storage tanks in its fenced-in yard, a tanker used for temporary storage of used oil was moved outside the fence to allow room for a crane to operate on February 20, 1989. During the evening and mornings of February 20 and 21, the valve on this tanker filled with 3,200 gallons of used oil leaked approximately 1,200 gallons onto the soil. Safety-Kleen personnel discovered the leak on the morning of February 21. They then transferred the remaining used oil into another tanker truck and dug a sump hole. During the day, approximately 400 gallons of an oil/water mixture was pumped from this hole. Mr. Sanderson further commented that he had been in contact with Phil Bracken of PDC Emergency Response, and that cleanup would begin on February 23. Agency personnel visually inspected the facility and the spill area again then departed at 2:45 p.m.

Attention News Director/Public Service Director:

The Illinois Environmental Protection Agency and the U.S. Environmental Protection Agency are considering issuing hazardous waste management permits to the Safety-Kleen Corporation located on V.F.W. Road between Highway 29 and 5th Street, south of Pekin, Illinois. The facility stores hazardous waste.

Enclosed is a Public Service Announcement that briefly describes how citizens can become involved in the permitting process. I would appreciate it if you would broadcast this information to citizens in your listening area so we can reach as many people as possible.

If you have any questions or would prefer to turn this into a news story, contact me at 217/782-5562. Please fill out and return the postage-paid broadcast verification card if you use the PSA. Having the cards helps me to keep track of which radio stations are interested in being informed of current environmental issues. Thanks for your assistance.

Sincerely,

Bradley Frost

LEGAL NOTICE

CERTIFICATE OF PUBLICATION

EPA NO: 1790600011
 LG No: ILD093862811
 NOTICE NO: PB06-93

PUBLIC NOTICE

The Illinois Environmental Protection Agency (IEPA) and the United States Environmental Protection Agency (U.S. EPA) hereby give notice of intent to ISSUE a joint Resource Conservation and Recovery Act (RCRA) and Hazardous and Solid Waste Amendments (HSWA) permit to the Safety-Kleen Corporation located on V.F.W. Road between Highway 29 and 5th Street, south of Pekin, Illinois. The facility's mailing address is the Safety-Kleen Corporation, Route 3, Pekin, Illinois 61554. Safety-Kleen currently stores hazardous waste under interim status as provided for in 35 Ill. Adm. Code 725.101(b).

Interested citizens are invited to review copies of the permit application, draft permit decision and related fact sheets at the following location(s):

Pekin Public Library
 801 South 4th Street
 Pekin, Illinois 61554
 809-347-7111

Interested citizens may submit written comments on the permit decision documents during the 45 day comment period. Send all comments to the Public Involvement Coordinator listed at the end of this Notice by August 7, 1993. In response to public requests or at the discretion of IEPA or U. S. EPA, a public hearing can be held to clarify one or more issues concerning the draft permit decision. A request for a public hearing must be made in writing and must state the nature of the issue to be raised at the hearing. Written requests should be sent to the Public Involvement Coordinator listed below. Public notice will be issued 45 days before any hearing.

All comments submitted will become part of the Administrative Record and will be evaluated by IEPA and U. S. EPA in making the final permit decisions. The two agencies will respond to comments on the draft permit decision, and indicate whether additional documents have been included in the Administrative Record. Anyone who submits written comments will be notified of the final permit decision and the permit decision appeal process.

The IEPA Division of Land Pollution Control is authorized to administer the RCRA program and, as of April 30, 1990, specific 1984 HSWA provisions (amending RCRA) that address corrective actions, waste minimization, mixed wastes and other regulatory functions. Corrective Actions are responses required of facilities that have or have had releases of hazardous constituents. IEPA welcomes information from the public that describes any such releases. U.S. EPA is authorized to address newer provisions of HSWA such as land disposal restrictions and some TCLP modifications. For further clarification of program authority, refer to the March 1, 1990 Federal Register, Vol. 55, No. 41, pg 7320.

The permit application, draft permit decision, related information and all data submitted by the applicant, as part of the Administrative Record, are now available for public inspection Monday through Friday between 9:00 a.m. and 5:00 p.m. at the following location:

Illinois EPA
 Office of Community Relations
 Attn: Bradley Frost, Community Relations
 Coordinator
 2200 Churchill Road
 P.O. Box 19276
 Springfield, Illinois 62794-9276

FINAL DECISION NOTICE

RECEIVED
WMD RECORD CENTER

MAY 05 1994

ILD 093862811

A.1.3

The Illinois Environmental Protection Agency provides notice pursuant to 35 Ill. Adm. Code 705.201 (c), that a final RCRA/HSWA hazardous waste permit was issued to the Safety-Kleen facility located in Pekin on September 28, 1993.

The applicant may petition the Illinois Pollution Control Board to contest this permit decision pursuant to 35 Ill. Adm. Code 705.212. Provisions of the U.S. EPA permit decision may be appealed to the Environmental Appeals Board in Washington D.C. pursuant to 40 CFR 124.19.

The deadline to appeal the IEPA permit decision is November 2, 1993.

The deadline to appeal the U.S. EPA permit decision is October 28, 1993.

For additional information on the appeal process or to receive a copy of the RCRA/HSWA permit decision or the IEPA response to comments, please contact:

Illinois Environmental Protection Agency

IEPA NO.: 1790600011
ILD NO.: ILD093862811
NOTICE NO.: PB13-90

DATE: October 19, 1990

PUBLIC NOTICE

The Illinois Environmental Protection Agency (IEPA) and the United States Environmental Protection Agency (U.S.EPA) hereby give notice of intent to deny a joint Resource Conservation and Recovery Act (RCRA) permit and a Hazardous and Solid Waste Amendments (HSWA) permit to Safety-Kleen Corporation on V.F.W. Road between Highway 29 and 5th Street, south of Pekin, Illinois. The facility's mailing address is R.R.#3 Pekin, Illinois 61554. Safety-Kleen is currently storing hazardous wastes under interim status as provided for in Section 3005 of RCRA.

Interested citizens are invited to review copies of the permit application, draft denial and related fact sheets at the following location:

Pekin Public Library
301 South 4th St.
Pekin, Illinois 61554

Interested citizens may submit written comments on the permit decision documents to the Public Involvement Coordinator at IEPA (listed at the end of this Notice) by December 3, 1990. In response to public requests or at the discretion of IEPA or U.S. EPA, a public hearing can be held to clarify one or more issues concerning the draft permit decision. A request for a public hearing must be made in writing and must state the nature of the issue to be raised at the hearing. Written requests should be sent to the Public Involvement Coordinator listed below. Public notice will be issued 45 days before any hearing.

All comments submitted will become part of the Administrative Record and will be evaluated by IEPA and U.S. EPA in making the final permit decisions. The two agencies will respond to comments on the draft permit decision, and indicate whether additional documents have been included in the Administrative Record. Anyone who submits written comments will be notified of the final permit decision and the permit decision appeal process.

The IEPA Division of Land Pollution Control has the authorization to administer the RCRA program and, as of April 30, 1990, specific 1984 HSWA provisions (amending RCRA) that address corrective actions, waste minimization, mixed wastes and other regulatory functions. For further clarification of program authority, refer to the March 1, 1990 Federal Register, Vol. 55, No. 41, pg 7320.

The permit application, draft denial, related information and all data submitted by the applicant, as part of the Administrative Record, are now available for public inspection Monday through Friday between 9:00 a.m. and 5:00 p.m. at the following location:

The Honorable Robert Madigan
Illinois State Senator
219 South Kickapoo
Lincoln, Illinois 62656

Dear Senator Madigan:

The enclosed material refers to the Resource Conservation and Recovery Act (RCRA)/Hazardous and Solid Waste Amendments (HSWA) permit applied for by the Safety-Kleen Corporation on V.F.W. Road between Highway 29 and 5th Street, south of Pekin, Illinois.

A public information repository has been established at the Pekin Public Library at 301 South 4th Street in Pekin, so that interested citizens can review the facility's permit application and the Illinois Environmental Protection Agency draft permit. IEPA is accepting public comments on the draft permit until August 7, 1993 for consideration prior to writing the final RCRA/HSWA permit.

If you have any questions, please call me at 217-782-3397.

Sincerely,

Thomas P. Walters

**CERTIFIED MAIL
RETURN RECEIPT REQUESTED**

October 14, 1997

Mr. Scott Hacke
Illinois Environmental Protection Agency
Division of Land Pollution Control
Permit Section
2200 Churchill Road
Springfield, Illinois 62794-9276

Subject: Annual Waste Minimization Certification
Pekin, Illinois Service Center ILD 093 862 811

Dear Mr. Harmon:

To meet the waste minimization conditions of the RCRA hazardous waste storage permit for the subject facility, Safety-Kleen Corp. is submitting a Waste Minimization Certification Statement.

Waste minimization is at the center of Safety-Kleen's business. As a recycler of hazardous waste, Safety-Kleen facilities receive hazardous wastes from off site and bulk them for transport to our recycling facilities. In that process, Safety-Kleen becomes a large quantity generator (LQG) of hazardous waste. However, Safety-Kleen is not the initial generator of the waste.

In addition to those wastes received from off site, some wastes are generated at the service center as a result of spill cleanup, use of solvent for on-site drum and parts cleaning, maintenance and operations.

Safety-Kleen's waste minimization plan includes techniques to reduce the volume and toxicity of waste generated at the service center. In addition, Safety-Kleen strives to be the leader in providing our customers with product alternatives which are user safe, environmentally friendly and promote waste minimization.

WASTE MINIMIZATION CERTIFICATION

PEKIN SERVICE CENTER 1997

I hereby certify under penalty of law that personnel under my direction and supervision at this facility are undertaking specific steps in accordance with a program in place to minimize the amount and toxicity of hazardous wastes generated at this facility to a degree economically practicable and that the method utilized for the treatment, storage or disposal of hazardous wastes is the practicable method currently available to this facility which minimizes the present and future threat to human health and the environment. I am aware that there are significant penalties for false certification, including the possibility of fine and imprisonment for flagrant falsifications.

DELEGATION OF AUTHORITY TO SIGN AND CERTIFY REPORTS SUBMITTED
UNDER RCRA, THE CLEAN WATER ACT, AND THE CLEAN AIR ACT

I, Scott E. Fore, hereby delegate to Safety-Kleen Corp. facility managers the authority to sign and certify reports concerning their respective facilities which are submitted on behalf of Safety-Kleen Corp. pursuant to the following provisions:

- (1) Section 3005 of the Resource Conservation and Recovery Act (42 U.S.C. § 6925), 40 C.F.R. § 270.11, and their counterparts under state statutes and regulations;
- (2) Section 402 of the Clean Water Act (33 U.S.C. § 1342), 40 C.F.R. § 122.22, and their counterparts under state statutes and regulations; and
- (3) the Clean Air Act, 42 U.S.C. § 7401 et seq., 40 C.F.R. § 70.5, and their counterparts under state statutes and regulations.

STATE BOARD OF HEALTH

OFFICE OF
SOLID WASTE AND EMERGENCY RESPONSE

Mr. Theodore H. Mueller
Safety-Kleen Corporation
655 Big Timber Road
Elgin, Illinois 60120

Dear Mr. Mueller:

This letter responds to the concerns raised in Safety-Kleen's "Petition for Clarification or Modification of Regulation," which you submitted to the Environmental Protection Agency on April 6, 1981.

According to the facts stated in the petition and at the May 27 meeting, Safety-Kleen distributes two types of small parts cleaning solvents to its customers. The solvents are a mineral spirits solvent and a chlorinated, water-phase solvent containing approximately 14% cresylic acid, 29% methylene chloride, 29% o-dichlorobenzene, and 28% water with a surfactant. The solvents are distributed through a closed-loop system in which solvent from the company's reprocessing facilities is delivered in company-owned trucks to regional service centers where it is stored for subsequent delivery to the company's customers. This solvent is then delivered under a lease arrangement to the customer in cleaning equipment supplied by Safety-Kleen or other companies. Delivery is performed by Safety-Kleen service representatives. The representatives replace drums of spent solvent with drums of clean solvent and return the spent solvent to the service centers. The mineral spirits solvent is usually transferred to bulk storage tanks; the chlorinated solvent remains in drums, which are generally kept in storage sheds. The spent solvent is then transported to the reprocessing facilities for recycling.

The petition submitted by Safety-Kleen requests EPA to issue a statement clarifying the meaning of the term "solid waste" in 40 CFR §261.2. The petition stated that the definition of "solid waste" in the Resource Conservation and Recovery Act was not intended to include materials recycled in a closed-loop system of the sort used by Safety-Kleen

because the materials in such a system are never discarded. Clarification was requested because Safety-Kleen believes that EPA's definition of "solid waste" can be interpreted as including some materials that are not discarded in a given industrial operation but that are discarded in others. Alternatively, Safety-Kleen requested that the regulation defining solid waste be modified to include only materials that are in fact discarded in the industrial operation in which they are created.

We have decided that the agency need not act on Safety-Kleen's petition at this time. Based on the facts contained in the petition, and additional information presented at the meeting, we have determined that neither of the solvents distributed by Safety-Kleen is presently listed as hazardous waste in 40 CFR §261, Subpart D. At the May 27 meeting, we pointed out that the spent mineral spirits solvent is not a listed waste, but sought further information on the chlorinated solvent distributed by Safety-Kleen. We recently advised you, and hereby confirm, that the spent chlorinated solvent is also not a listed waste. Although the solvent contains materials that are contained in wastes listed in 40 CFR 261.31, it is our interpretation that the regulations are intended to apply to spent solvents identifiable as any technical grades of the chemical that is produced or marketed and not to mixtures otherwise containing the chemical. Safety-Kleen's chlorinated solvent is a mixture of cresylic acid, methylene chloride, o-dichlorobenzene and water. The company's spent solvent thus does not constitute a waste listed in Subpart D of Part 261 and is not considered a listed waste.

Thus, Safety-Kleen's spent solvents would only be hazardous because they exhibit any of the four characteristics identified in 40 CFR §261, Subpart C. Because non-listed hazardous wastes are not subject to regulation at this time if they are being beneficially recycled or stored for that purpose, (see 40 CFR §261.6(a)), the regulations already provide the relief sought in your petition. Thus, we plan no further actions on your request. Please contact Matt Straus of my staff if you have any further questions. Mr. Straus can be reached at (202) 755-9187.

Very truly yours,

John P. Lehman
Director

Hazardous & Industrial Waste Division (WH-565)
